

ARTIST IN RESIDENCE: JARED EMERSON

FEBRUARY 12-14

Artist Jared Emerson's career has never been a typical one—but perhaps that is the beauty behind his powerful work. After an injury in college, he pivoted from playing basketball to painting, igniting his new passion. Today, he explores a range of mediums—oils, acrylics, graphite and others—and subjects with the singular goal of capturing the essence of whatever he creates. His faith informs every aspect of his art, and led to his signature live performance art: a visceral painting experience where he creates large-scale paintings to music, working rapidly, often with his hands. Come witness one of Jared's painting performances yourself, view his work and talk with the artist as he joins us at the farm this Winter.
